

Mock Document for PDF Chatbot Testing

This is page 1 of the mock document.

Keywords: RAG, ChromaDB, EnsembleRetriever, Gradio, Python

Topic: The architecture of our PDF chatbot includes low complexity.

We use LangChain Expression Language (LCEL) for high reliability.

Technical Details and Configurations

This is page 2 of the mock document.

Details: We implement a model factory that supports multiple API providers.

Specifically, we support OpenAI, Anthropic, Google Gemini, and Hugging Face.

Logs are written in JSON format with ISO 8601 datetimes to split directories.
